SUGAR PLANTERS' ASSN. NOW IN ANNUAL MEETING

Crop for 1912-13 Reaches the
Total of 546,798 Tons, Ac-
cording to Expert
Figures

THE SUGAR CROP.

Hawaii's sugar crop for the year 1912-1913 is 546,798 tons. Such are the figures presented at the annual meeting of the Hawaiian Sugar Planters' Association, which was called for today and continued over until next week. The complete figures, compiled by the planters' bureau of labor and statistics in its usual thorough and authoritative manner, are given on page 19 of this issue, together with the statement of sugar crops for the ten years from 1904 to 1913, inclusive. This year's crop is the third largest in the history of production in the islands.

Convening merely to adjourn, the Hawaiian Sugar Planters' Association opened its thirty-third annual meeting in Castle and Cooke hall at 10 o'clock this morning. J. P. Cooke, president, in the chair. It had not been intended to take up important business this session, the opening day having been fixed to comply with the by-law requiring the annual meeting to convene in October or November. Yet even the preliminary routine that might have been dispatched was postponed until Monday, owing to the lack of a quorum.

When the meeting had been called to order, W. O. Smith, secretary, stated that the crop reports were on hand for distribution, and the reports of committees would be mostly all in today for distribution on Monday. If the meeting wished, the roll might be called, but it could be seen that there was not a quorum present. He asked the members present if they had any suggestions to make about the room arrangements.

Mr. Mott thought the arrangements were all right and that the place was a great improvement on the old assembly room.

President Cooke asked if the mem-

Japanese Consul For Territory is Recalled to Tokyo

Consul-general Hisakichi Eitaki, consul-general for Japan in the Hawaiian islands with consulate at Honolulu, has been summoned to return to Tokyo immediately, a cablegram to this effect having reached him from the capital this morning. Consul-general Eitaki does not know the reason for the action of his government, but it is rumored that his services are required to represent Japan at a Chinese port. The consul and his family will leave Honolulu for Tokyo December 17.

A meeting for Hawaiian mothers was held at the Palama Settlement last evening, the feature of which was a Hawaiian tableau. The Portuguese mothers will have charge of the meeting next month.

SUPERVISORS TO HOLD A BUDGET CAUCUS SUNDAY

Leahi Home Appropriation Is
Among Many Points To Be
Discussed by City Dads

Whether the appropriation for Leahi Home is to be continued, whether financial support will be given for the bovine tuberculosis work of the board of agriculture and forestry, and whether the improvements for the police and fire departments, as recommended by the civil service commission, will be provided for—these and other questions will be passed on tomorrow morning when the supervisors meet in caucus to agree upon the budget for the next semi-annual period.

Many important matters in the policy of the board will take definite shape before the budget is finally reported out. Cuts may be made in many of the present expenses of the municipal government to keep the board well within its revenue. Chairman McClelland of the ways and means committee, who has given a great amount of study to the financial condition, past and present of the city and county, expects the present board to end its term with the reputation of being the most economical ever in office.

"So far this board has been more economical than any other," he said at a meeting recently.

The board of supervisors met yesterday afternoon for a few minutes, passing on payrolls and agreeing upon the caucus for tomorrow morning.

The question of appropriation for Leahi Home will be bitterly fought over, according to present indications. Several of the supervisors feel an unfair advantage has been taken of them by the home, which they maintain now is requiring emergency cases to be paid for when sent there by the city and county physician at the rate of \$1.50 a day, notwithstanding that the board gives the home a special appropriation of \$250.

According to present talk among the supervisors, it seems to be the plan to cut out altogether the appropriation to the home, sending patients there whenever necessary at the rate of \$1.50 a day.

The home has asked that the appropriation be raised from \$250 to \$500 a month. This request was made some months ago, but no action has been taken.

WADMAN HEADS ANTI-SALOON'S WORK IN HAWAII

League Calls Him to Take Gen-
eral Charge, Beginning with
January 1

Planning far-reaching work for the future, the Anti-Saloon league yesterday called the Rev. Dr. John W. Wadman to take general charge of its work in Hawaii.

The call, issued from a meeting of the league's executive committee yesterday afternoon, was accepted by Dr. Wadman last night and he will take his new post on January 1, giving up his present work as head of the Methodist missions.

Rev. D. C. Peters, president of the league, presided at yesterday's meeting and plans were discussed for important extension of the activities of the organization. George W. Paty will continue as agent of the league in Honolulu, where his energy and faithfulness have given good results.

Dr. Wadman is especially fitted for his new duties, by reason of his extended residence in the islands. He has resided here for 10 years, continuously engaged in charitable and religious work and has a very wide personal acquaintance with men and women of many races and classes. His familiarity with Japanese and Korean languages and customs will be of immediate value in the educational work.

The Anti-Saloon league is much gratified over the successful outcome of its expansion plans, even though these plans involve the raising of considerable additional funds. The working organization that is being built up, it is believed, will aid greatly in assuring the raising of the funds.
